Canaan Care Services

Group Home Residential Services

*“Challenging assumptions and
expanding boundaries”*

Who we are

Canaan Care Services (CCS) is a Group Home Residential Services designed for individuals with intellectual and developmental disabilities. It is an organization aimed at serving its residents at the state-of-the-art level with qualified professionals.

What we believe

CCS's missions and goals are to serve individuals diagnosed with intellectual disabilities by helping them in their activities of daily living and to meet their day to day and developmental needs in the framework of family size homes undistinguished from any other homes in the communities where they are implanted.

CCS's goal is *to challenge assumptions and expand the boundaries* of what is possible through the following values:

- ✓ Involving individuals and families in the design, operation, and monitoring of services
- ✓ Maintaining family-sized homes in the individual's own community
- ✓ Tirelessly advocating for person-centered services
- ✓ Fostering the development of functional life skills
- ✓ Fostering the development of relationships with other communities

What we provide

CCS delivers quality community living support and living environments for adults with intellectual and developmental disabilities.

CCS provides community based residential supports in rented or owned homes indistinguishable from other homes in the community.

The supports provided are based on individual need and choice, aimed at increasing self-sufficiency, and may include assistance or training in personal hygiene, communication, home living skills, money management, socialization, and physical assistance.

Reach out to us to learn more about how we can serve you.
